

STRIDE™ Sovereign Platform

Zero-Capex Digital Passes, Statutory Quorum Telemetry & ODPC § 25 Compliant Governance Engine

Prepared For:	Board of Directors, Executive Management, Company Secretaries & ICT Committees
Target Sectors:	Regulated SACCOs, Tier-1 Banks, Listed PLCs, Sports Federations & Professional Associations
Platform Solution:	STRIDE™ Sovereign Enterprise Edition (v2.8 Production Architecture)
Statutory Mandate:	Kenya Data Protection Act 2019 (ODPC § 25) • SASRA AGM Quorum Standards • Companies Act § 284
Cloud Infrastructure:	Zero-Capex Serverless Architecture • AWS Frankfurt Managed PostgreSQL • Streamlit Cloud Edge
Production Sandbox:	https://cbk-stride.streamlit.app Dedicated SACCO Portal: /BKS
Date of Issue:	October 2026 Validity: 90 Calendar Days

EXECUTIVE BRIEF:

Traditional corporate AGMs, shareholder elections, and large-scale sporting conventions are plagued by vulnerabilities: fraudulent proxy certifications, contentious manual headcounts, exposed attendee phone numbers, and exorbitant on-premise AV/IT hardware rental costs. **STRIDE™** eliminates these vulnerabilities in their entirety. By pairing zero-capex cloud-native computing with cryptographic digital mobile passes, real-time SASRA quorum telemetry, and automated Kenya DPA 2019 PII privacy masking, **STRIDE™** guarantees indisputable institutional trust at a fraction of the cost.

1. The Enterprise Problem & Operational Risk

Modern corporate governance, regulated SACCOS, and federations face intense statutory and operational pressures when convening physical or hybrid statutory meetings. Conventional event management workflows expose institutions to severe liabilities:

Operational Challenge	The Traditional Breakdown	The Institutional Liability
Statutory Quorum Verification	Slow, manual sign-in desks with long queues; physical delegating materials called by Companies Act § 284 or SASRA regula	
PII Exposure & Privacy Breach	Printed attendee rosters placed at door desks revealing ODC's 25 penalties (up to KES 5,000,000 or 1% annual turnover	
Proxy Hijacking & Ballot Tampering	Paper voting slips, unverified proxy appointments, and litigation from aggrieved shareholders, regulatory inquiries, and bo	
High Capex Hardware Overhead	Renting expensive badge printers, dedicated server racks, justified operational budgets starting from KES 150,000 to KES 1,	

2. The STRIDE™ Sovereign Solution Architecture

STRIDE™ is an agile, zero-capex cloud-native platform engineered specifically to resolve these challenges. Built with high-throughput cloud infrastructure and deployable within minutes, STRIDE™ delivers four sovereign capabilities:

• Zero-Capex Serverless Core Operates entirely on managed cloud-native edge compute (Streamlit Cloud + AWS Frankfurt PostgreSQL). Zero servers to procure, zero software licenses to maintain. Door ushers utilize existing company smartphones or iPads to scan passes.	• Kenya DPA 2019 Privacy Pipeline All delegate telephone numbers and institutional emails are masked by default (e.g. 072* *** *56) across public screens and usher desks. Protected by 2FA Secretariat passkey reveal with an automatic 15-minute relock timer.
• SASRA Real-Time Quorum Radar Instantaneous live quorum telemetry against constitutional thresholds. Live categorization of principal members vs. accredited proxies, providing Returning Officers with statutory certainty before motions are tabled.	• Decoupled Cryptographic Ballot Strict cryptographic decoupling of the member's identity accreditation token from their voting record. Enables tamper-proof resolutions, candidate elections, and share-weighted corporate ballots.

3. Multi-Industry Enterprise Use Cases

STRIDE™'s modular architecture spans regulatory, commercial, and athletic institutions:

Sector / Institution	Core STRIDE™ Application	Primary Strategic Value
Regulated SACCOs & Microfinance	Annual General Meetings (AGM), Special General Meetings (SGM), Delegate Accreditation	SASRA (SOM) Compliance, Elimination of unaccredited proxy votes.
Listed PLCs & Commercial Banks	Annual Shareholder Meetings, Board Elections, Extraordinary General Meetings (EGM)	Shareholder Registry (EDW) § 25 compliance for VIP/HNI shareholders.
Sports Clubs & National Federations	Inter-Bank Games, National Championships, League Tournaments, Player Registration	Enhanced Player Safety, Real-time roster management, pitchside analytics.
Medical & Professional Unions	Annual Scientific Conferences, Credential Accreditation, Yearly CME Assemblies	Healthcare Access Clearance, tamper-proof QR check-in, real-time attendance tracking.

4. Institutional Case Study: Central Bank of Kenya Sports Club & Banki Kuu SACCO

STRIDE™ was deployed to power the accreditation, athlete telemetry, and statutory AGM infrastructure for the **Central Bank of Kenya (CBK) Sports Club** and **Banki Kuu Staff SACCO Society** (58th AGM Pilot).

- PILOT RESULTS & BENCHMARK HIGHLIGHTS:**
- **5-Minute Onboarding:** Complete delegate roster ingested and tokenized in under 300 seconds.
 - **Zero Hardware Rentals:** Gate ushers scanned 100+ arriving delegates using standard iOS/Android devices with zero check-in bottlenecks.
 - **100% SASRA Quorum Telemetry:** Returning Officers verified statutory constitutional floor (50 delegates minimum) with live surplus telemetry (+51 surplus) before tabling key resolutions.
 - **Bulletproof Privacy Audit:** All personal contact data remained masked during check-in, satisfying ODPC § 25 guidelines with zero data leak incidents.

5. Commercial Pricing & Investment Tiers

STRIDE™ offers transparent, modular pricing with zero hidden setup fees and zero infrastructure maintenance charges. Clients may procure STRIDE™ per-event or via an Annual Enterprise Sovereign License.

Tier	Scope / Capacity	Event License Fee	Core Deliverables & Capabilities Included
Society / Club Tier	Up to 100 Delegates or Athletes	KES 15,000 (One-off / Event)	• Self-Serve Event Wizard Creator • Dynamic QR Digital Pass Generation • Live Usher Phone/Tablet Scanner Terminal • Official CSV Attendance Register Export
Mid-Sized Corporate / Regulated SACCO Tier [Recommended]	101 – 500 Delegates (Standard AGM)	KES 35,000 (One-off / Event)	• Everything in Society Tier plus: • SASRA Statutory Quorum Radar Gauge • Principal vs. Proxy Breakdown Telemetry • Decoupled Encrypted Secret Ballot (3 Motions) • Kenya DPA 2019 Masking & 2FA RBAC Relock • Dedicated Remote Tech Concierge Support
Large PLC / Tier-1 Enterprise Tier	501 – 2,500+ Delegates (Hybrid / Multi-Gate)	KES 75,000 (One-off / Event)	• Everything in Mid-Sized Tier plus: • Multi-Gate Dual Usher Synchronizer • Share-Weighted Voting Matrix & Candidates • Dedicated AWS Frankfurt High-Throughput Node • White-Glove On-Site Returning Officer Concierge • Post-Event Forensic Statutory Audit Dossier

Optional Annual Sovereign Enterprise Retainer:

For institutions hosting multiple assemblies, sports days, and committee elections throughout the fiscal year, an **Annual Enterprise Retainer (KES 120,000 / year)** provides unlimited events, continuous 24/7 PostgreSQL uptime, and priority white-glove feature development.

6. Rapid Implementation Roadmap (48-Hour Guarantee)

Phase	Milestone / Activity	Turnaround Time
Phase 1: Ingestion	Client submits delegate/member roster (Excel/CSV) & event agenda parameters.	Hour 0 – 12
Phase 2: Provisioning	STRIDE™ provisions dedicated tenant, configures quorum thresholds & secret ballot motion	Hour 12 – 24
Phase 3: Dispatch & Training	Automated distribution of dynamic mobile passes; 30-minute usher briefing.	Hour 24 – 36
Phase 4: Live AGM / Event	Live gate check-in, real-time quorum attainment radar, and secret ballot tabulation.	Hour 48 (Event Day)

7. Enterprise Security, Privacy & SLA Guarantees

• 99.98% Service Availability Multi-region high-availability failover backed by AWS Frankfurt PostgreSQL persistence.	• End-to-End Encryption All in-transit telemetry secured via TLS 1.3; data at rest protected using AES-256 bit encryption.
• 15-Minute Auto-Relock Security Terminals automatically re-mask PII if inactive, mitigating venue shoulder-surfing.	• Post-Event Data De-identification Client-controlled data retention policy with 1-click irreversible sanitization.

8. Formal Commercial Acceptance & Authorization

By signing below, the Client authorizes STRIDE™ to initiate event provisioning and onboarding under the selected tier and terms outlined in this proposal.
